DAY'S DOINGS ON THE WATERFRONT

ARABIA IN FROM CHINA AFTER PLEASANT TRIP—ALLIANCE ARRIVES FROM COOS—F. S. LOOP HERE FOR LUMBER—VILLARD SAILS.

The fine steamship Arabia, of the Portland-Asiatic line, entered port yesterday morning early, 19 days out from Hong Kong. She had fine weather all the way across the Pacific and brought a cargo of teas and matings. The Arabia went on the metropolis after a brief stop in the bay, to pick up Captain Pease, her pilot up stream.

The Northland arrived in from San Francisco yesterday, and left up the Columbia almost immediately, for Portland, where she will load lumber outward.

The steamer Sue H. Elmore arrived down from Portland early yesterday morning and left out for Tillamook points at once.

The Elmore motor schooner Gerald C. was among the get-aways from this port yesterday morning, laden with general cargo for the Nestucca river.

The steamer Alliance, Captain Olsen, crossed in from Coos, at noon, yesterday, and an hour later docked at the Callender pier. She had 60 passengers on board and a good bunch of freight for the metropolis. Purser Skinner dropped off here for the afternoon, on business matters, and went on to Portland via the 6:10 express last evening. The Alliance returns down to leave out at 8 a. m. next Sunday.

The Portland-Eureka packet, Eureka, was in Coos Bay when the steamer Alliance left out for this port and Portland, and it was understood that she was not coming further north this trip as she had nothing in the way of freight for any point north of Coos. She went back to Eureka to take a fresh start.

The steamer F. S. Loop arrived in this harbor yesterday at 1 o'clock, from Tillamook Bay where she had loaded on 100,000 feet of lumber. She will take 70,000 feet at the Astoria Box Company's dock; 45,000 feet at

the D. L. Kelly mills at Warrenton, and 200,000 feet at the Clatsop mills dock, before going over to Knappton to finish her outward cargo. She is covering a "good many eggs" in this deal, but all the same she will "hatch" out a smashing good shipment before she goes over the Columbia bar.

The steamer Homer is due in this port from San Francisco, sometime today or early tomorrow morning.

The steamer Westerner is billed to arrive here today or tonight, from the Bay City, after a load of lumber.

The steamer Washington, from San Francisco, should enter port this morning, on a big lumber quest, as usual.

The steamer Geo. W. Elder is due to leave the Callender docks at 6:30 o'clock tomorrow morning for Eureka, San Francisco and Port Los Angeles.

American ship Henry Villard with the people and stores of the Alaska Fishermen's Packing Company on board, went over the Columbia bar yesterday at high noon, bound for Bristol Bay. All Astoria wishes her better luck than attended her predecessor in this interest, the John Currier; and that she, and her colleagues, the Berlin and the St. Nicholas, may find their way to these waters this fall, with all hands in good health, and their holds straining against immense and profitable cargoes.

The steamship Breakwater, Captain Macgenn, will be down this morning, outward bound for Coos, as per her undeviating schedule.

The news has been received in this city that the steamer Aurelia, which left here last Sunday afternoon under escort of the steamer St. Helen's has arrived safely at the Bay City, but was making water at the rate of seven inches an hour, and will go on the drydock instant for repairs. Considering the jam she got from the St. Helen's this is pretty good news and indicates that she was well taken care of for the voyage.

The Lurline has fallen right into her old trick of meeting her schedule in and out of this port, and is doing her old-time business stunt daily. She arrived down yesterday at 4 p. m. and went back at 7 p. m. with plenty of people and freight.

stay at Nushagak, Alaska, went to the lower harbor at 1 o'clock yesterday, and would have gotten to sea, but for some small matter of delay that will hold her until this morning.

A FISHERMAN'S IDEA.

Communication Filed for Publication in These Columns by a Party in Interest.

The following communication was filed in this office yesterday with the request that it be published, a favor granted without specific comment: "In commenting on the mass meeting of the citizens of Astoria for the purpose of fish legislation through the initiative and referendum, there is no doubt but it is a move in the right direction. But, after hearing the reason why most of the cannermen did not donate to the fund before, was that they had come to the conclusion that Mr. Rosenberg did not have the matter as much at heart as one who is engaged in fishing for salmon. As it looks much as if this movement was so late as to endanger the welfare of this industry and therefore the packers were opposed to putting up money in the hands of Mr. Rosenberg, who has shown by the selection of his committee geographically, and their conspicuousness at the mass meeting by the absence of the people on the committee outside of Astoria, that the only interest taken in the matter was by the people of Astoria whom he had to call to the rescue, as we heard no report from the president or any officers of the salmon association. So at this time we do not care to jeopardize the fighting reputation of 'Bob Evans,' until we see the outcome of this battle, which in our estimation would have been an easy one if it had been properly managed.

State Railroad Commissioner.

There is a growing sentiment among the substantial commercial interests of the City of Portland that at least one member of the State Board of Railroad Commissioners, in order to obtain the best results, should be a man with practical railroad experience. In the pending campaign such a man is found in the person of W. H. Hurlburt, who for the past 35 years has been engaged in railroad work, having occupied positions of responsibility and trust in every department—construction, operating and traffic. It is generally conceded that the expert knowledge thus gained must be of inestimable value to the board. Mr. Hurlburt is not now in any way either directly or indirectly interested in, or connected with, any railroad company and is therefore in a position to render the state the best possible service by dealing fairly with all interests involved within the jurisdiction of the Commission.

AN INSIDIOUS DANGER.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. T. F. Laurin Owl Drug Store.

The Commercial.

One of the coziest and most popular resorts in the city is the Commercial. A new billiard room, a pleasant sitting room and handsome fixtures all go to make an agreeable meeting place for gentlemen, there to discuss the topics of the day, play a game of billiards and enjoy the fine refreshments served there. The best of goods are only handled, and this fact being so well known, a large business is done at the Commercial, on Commercial street, near Eleventh.

"Modern" Delights.

When a man passes under the hands of a barber he wants the best skilled treatment to be had in that line. In Astoria, the man in search of such manipulation, goes direct to Petersen's "Modern" shop, at 572 Commercial, and gets it in any of the six chairs maintained.

The very best board to be obtained in the city is at "The Occident Hotel." Rates very reasonable.

does not wane as time progresses. The system used, that of furnishing the finest the market affords, and all can be obtained, in season, is a plan that will always win, coupled as it is with the best of cooking and prompt service. A common saying nowadays is "Get the Palace habit."

The Clean Man.

The man who delights in personal cleanliness, and enjoys his shave, shampoo, haircut, and bath, in Astoria, always goes to the Occident barber shop for these things—and gets them at their best.
